

IWATA IS 35 Ninja Jet Compressor

1/12 HP • No Tank

Working Pressure 1-15 psi

The Iwata Ninja Jet compressor proves ideal for the hobbyist or professional user who needs a small, reliable source of air. The Ninja Jet's quiet operation makes it ideal for use in small work spaces and it is capable of powering most gravity feed airbrushes for low pressure applications of 1 to 15 psi.

This compressor is simple to operate and requires zero maintenance providing easy, reliable air when you need it. The air regulator knob allows you to adjust the working pressure so you can find the best spray for your airbrush and project. The built-in airbrush holder provides a safe and convenient place to rest your airbrush when you are not spraying.
